Work Offered

Research and development intern in the biotech industry.
You will be part of the lab team and help our scientists to test and develop methods, reagents and kits for the biotech, diagnostic and pharmaceutical industry. You will also deal with our marketing team and help them to present these reagents and kits to the scientific community worldwide.
You will get insight into working in a privately held, innovative high-growth biotech company. The lines of communication at Jena Bioscience are short and open, the supervisors and team are very supportive. We have a long track record of successfully supervising Bachelor-, Master- and DAAD students. We are flexible regarding the start date of the internship.
