### Work Offered

WALDLAND Naturstoffe GmbH is part of the WALDLAND company group. Since 35 years, WALDLAND operates as a raw material supplier as well as a processing facility for the pharma, food and feed industry. Approximately 925 agricultural member farmers, located at the Waldviertel, carry out the production of the raw materials. The further processing takes place at the headquarters in Friedersbach. We have established the following production emphases at WALDLAND: medical plants, spices & bakery seeds, pollen products as well as kitchen & tea herbs. All these commodities are cultivated annually on an area covered by contract of approximately 5.000 ha. The main products are – among others – milk thistle, St. John's wort, grey poppy seeds, caraway and chive. These are cultivated and processed side by side to 70 further special crops. The raw materials are processed with various different drying systems as well as with machines for cutting and fractionation. For the summer months we are looking for responsible and dedicated holiday workers in the herb production area. This position essentially includes the following tasks: • takeover, load and unload raw materials • operation of production facilities • processing and packaging of our products
